1. Great
fications a
Officers r
guides by
and for th
ations for
and "Rating best qu
Executive Officer. All men should be marked for professional qualifications, in their respective ratings, on the scale of 0 to 4.0.

(a) Marks for proficiency in rating for any period of time are to be understood as showing the intelligence and zeal displayed by a man in his performance of all the particular duties of the rating held by him during that time.

(b) Marks for seamanship are to be understood as showing the ability and usefulness of a man in performing all the duties required of a *seaman* as well as his knowledge of all matters relating to seamanship.

(c) Marks for ordnance are to be understood as showing the proficiency and intelligence of a man in all matters pertaining to the nomenclature, use, and care of guns, mounts, torpedoes, small arms, ammunition, primers, and fuses of every description used in the Navy; the mark for any one quarter being based upon the knowledge retained from instruction given during that quarter.

(d) Marks for signaling are to be understood as showing the ability and intelligence of a man as a signalman, independently of his rating.

(e) The entries in the column "Marksmanship, Small Arms," shall be as provided in the instructions governing target practice and the use of small arms.

(f, g, h) All men of the artificer class shall be marked on their enlistment records, for "mechanical ability," those of the engineer force to be marked also for "knowledge of marine machinery," and electricians for "knowledge of electrical machinery and appliances, and ordnance."

(i) Marks for ability as leader of men are to be given men of all ratings, except landsmen, apprentice seamen, seamen second class, and firemen third class.

2. Commanding officers must pay particular attention to marks for sobriety and obedience and resulting recommendations for Honorable Discharge and Good Conduct Medal, in order that equal weights will be given for equally grave offenses and strict justice accorded the enlisted man.

When a mark below 4.0 is assigned in sobriety or obedience for a quarter in which no offense is shown on the record, the cause for such action must be entered in the column of offenses.

3. Should the final recommendations regarding Honorable Discharge and Good Conduct Medal not accord with the record, due weight being given to the recommendations of all other captains under whom the man may have served during his current enlistment, as shown by his enlistment record, the commanding officer must state on the enlistment record clearly and concisely, over his own signature, the reasons for such recommendations.

4. In cases of men reenlisting immediately on board of the vessel from which discharged, an entry showing the original place of enlistment must be made on the enlistment record.

5. On pages 4, 5, 6, 7, 8, 9, 10, and 11 it will be noted that the lines are numbered. These pages take the place of the old form of enlistment record, and the entries at the "end of quarter," "transfer," etc., should be made on the same numbered lines if possible. The commanding officer's signature in the column "Signature of Commanding Officer" is an acknowledgment of all entries between the line on which his signature is placed and the last entry by himself or a previous commanding officer.

6. In the column "Meritorious Conduct, Offenses," etc., page 8, the commanding officer, on the transfer or discharge of a petty officer, first class, or chief petty officer, or upon his own detachment, shall note whether or not the man possesses qualifications for future consideration for appointment as a warrant officer. When petty officers of lower ratings are considered especially well fitted, this same note may be made on their records at the discretion of the commanding officer.

7. On page 12, "Details," note will be made in the proper column of the character of duty performed by the petty officers, with dates at the beginning and completion thereof, especially when regularly detailed in the following cases: Electricians detailed for wireless; gunners' mates for electrical work, battery, or torpedoes and mines; machinists' mates for ordnance or electrical work; quartermasters, whether for ship or signal; yeomen, whether for captain, executive, ordnance officer, navigator, equipment, engineer, or pay department, or in charge of ship's store; and any other detail showing special aptitude, knowledge of which would be valuable to succeeding commanding officers; musicians, note the instrument they play; also when a man is detailed as messman, compartment cleaner, jack-of-the-dust, ice-machine tender, evaporator tender, or other special detail, with period so detailed.

8. No interlineations, erasures, alterations, or use of ditto marks will be permitted. Should an error be made, a light red-ink line will be drawn through it, the commanding or executive officer entering his initials alongside in ink.

9. The signatures of commanding officers to all final entries on enlistment records closed by discharge, desertion, or death, and to every quarter in which a court-martial or change of rating has occurred, must be written, not stamped.

10. The stubs in the back of the book are for the insertion of the Gunners Record, and Appointments, which will be inserted with a view of removal and delivery to the man on his discharge, the perforated line being for detachment.

11. Attention is invited to the latest edition of Bureau's Annual Circular, "Information for Commanders-in-Chief, Division Commanders, Commandants, and Commanding Officers."

12. Absence from duty on account of sickness or diseases resulting from intemperate use of drugs or alcoholic liquors or other misconduct shall be noted on page 16 and attested by the signature of the Commanding Officer. The enlistment is not complete until such absence over one day is made good.
